

Notice of Allowability

Application No.

09/788,211

Examiner

Phuong Phu

Applicant(s)

JOSEFSSON ET AL.

Art Unit

2611

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address--

All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. **THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS.** This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.

1. ☒ This communication is responsive to the Amendment filed on 8/23/07.
2. ☒ The allowed claim(s) is/are 1,3-27 and 31-47.
3. ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
 - a) ☐ All b) ☐ Some* c) ☐ None of the:
 1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this national stage application from the International Bureau (PCT Rule 17.2(a)).

* Certified copies not received: _____.

Applicant has THREE MONTHS FROM THE "MAILING DATE" of this communication to file a reply complying with the requirements noted below. Failure to timely comply will result in ABANDONMENT of this application.
THIS THREE-MONTH PERIOD IS NOT EXTENDABLE.

4. ☐ A SUBSTITUTE OATH OR DECLARATION must be submitted. Note the attached EXAMINER'S AMENDMENT or NOTICE OF INFORMAL PATENT APPLICATION (PTO-152) which gives reason(s) why the oath or declaration is deficient.
 5. ☐ CORRECTED DRAWINGS (as "replacement sheets") must be submitted.
 - (a) ☐ including changes required by the Notice of Draftsperson's Patent Drawing Review (PTO-948) attached
 - 1) ☐ hereto or 2) ☐ to Paper No./Mail Date _____.
 - (b) ☐ including changes required by the attached Examiner's Amendment / Comment or in the Office action of Paper No./Mail Date _____.
- Identifying indicia such as the application number (see 37 CFR 1.84(c)) should be written on the drawings in the front (not the back) of each sheet. Replacement sheet(s) should be labeled as such in the header according to 37 CFR 1.121(d).
6. ☐ DEPOSIT OF and/or INFORMATION about the deposit of BIOLOGICAL MATERIAL must be submitted. Note the attached Examiner's comment regarding REQUIREMENT FOR THE DEPOSIT OF BIOLOGICAL MATERIAL.

Attachment(s)

1. ☐ Notice of References Cited (PTO-892)
2. ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
3. ☐ Information Disclosure Statements (PTO/SB/08),
Paper No./Mail Date _____
4. ☐ Examiner's Comment Regarding Requirement for Deposit
of Biological Material
5. ☐ Notice of Informal Patent Application
6. ☐ Interview Summary (PTO-413),
Paper No./Mail Date _____
7. ☒ Examiner's Amendment/Comment
8. ☒ Examiner's Statement of Reasons for Allowance
9. ☐ Other _____

DETAILED ACTION

1. This Office Action is responsive to the Amendment filed on 8/23/07. Accordingly, claims 1, 3-27 and 29-47 are currently pending; and claims 2 and 28 are canceled.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. David Poirier on 09/12/07.

The application has been amended as follows:

IN THE CLAIMS:

-Claims 29 and 30 are canceled.

REASONS FOR ALLOWANCE

3. Claims 1, 3-27 and 31-47 are allowed.
4. The following is an examiner's statement of reasons for allowance:

-Regarding independent claim 1, none of prior art of record teaches a calibration system, as claimed. Raghavan (6,415,003), previously cited, teaches the claimed system except he fails to teach a calibration circuit responsive to an altered reference signal of a transmitter circuit altered by a transmission medium for adjusting the reference signal level of both of said transmitter circuit and a receiver circuit to compensate for variations in a transmission signal being transmitted via the transmission medium from the transmitter circuit and the receiver

Art Unit: 2611

circuit, the variation due to the transfer function of the transmission medium. In Raghavan, the calibration circuit adjusts only the reference signal level of the receiver circuit to compensate for variations in the transmission signal. It would not have been obvious for one skilled in the art to implement Raghavan in view of other prior art for leading such the implementation to the claimed invention.

-Regarding independent claim 40, none of prior art of record teaches a calibration system, as claimed. Raghavan teaches the claimed system except he fails to teach a calibration circuit responsive to an altered reference signal of a transmitter circuit altered by a transmission medium for adjusting the reference signal level of both of said transmitter circuit and a receiver circuit to compensate for variations in a transmission signal being transmitted via the transmission medium from the transmitter circuit and the receiver circuit, the variation due to the transfer function of the transmission medium. In Raghavan, the calibration circuit adjusts only the reference signal level of the receiver circuit to compensate for variations in the transmission signal. It would not have been obvious for one skilled in the art to implement Raghavan in view of other prior art for leading such the implementation to the claimed invention.

-Regarding independent claim 44, none of prior art of record teaches a calibration system, as claimed. Raghavan teaches the claimed system except he fails to teach a calibration circuit responsive to an altered reference signal of a transmitter circuit altered by a transmission medium for adjusting the reference signal level of a transmitter circuit to compensate for variations in a transmission signal being transmitted via the transmission medium from the transmitter circuit and a receiver circuit, the variation due to the transfer function of the transmission medium. In Raghavan, the calibration circuit adjusts the reference signal level of the receiver circuit, not of

the transmitter circuit, to compensate for variations in the transmission signal. It would not have been obvious for one skilled in the art to implement Raghavan in view of other prior art for leading such the implementation to the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phuong Phu whose telephone number is 571-272-3009. The examiner can normally be reached on M-F (8:00 AM - 4:30 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chieh Fan can be reached on 571-272-3042. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
